# Who We Are

PRODG Botanicals Private Limited is expanding its export-driven agricultural and food processing portfolio with a focus on high-value IQF products, premium teas, and value-added agri-commodities for global markets.

Rooted in India's rich agrarian heritage and powered by modern food processing technology, we bridge the finest Indian agricultural produce with discerning buyers across 31 nations — from the Middle East's basmati corridors to Europe's premium organic shelves and North America's fast-growing plant-based markets.

### Nature-First Sourcing

Farm-gate procurement with APEDA-certified traceability from 80,000+ partner farmers.

### Global Compliance

BRC, HACCP, FDA, Halal, Kosher — pre-cleared for the world's most demanding import markets.

### Premium Value-Add

IQF processing, aseptic packing, private label & OEM capabilities for retail-ready exports.

*IQF Fruits, Vegetables & Mango Pulp*

**\$1.26B**

Asia-Pacific IQF Market 2025

**KEY MARKETS**

UAE · UK · Netherlands · Germany · Australia · Japan · Korea · Singapore

### Fresh Mangoes & Tropical Fruits

HS 080450

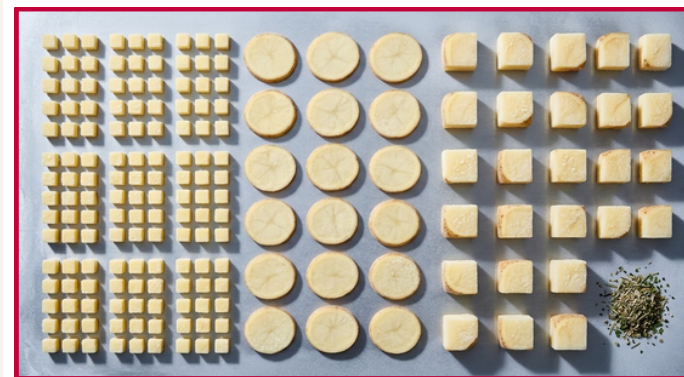

GI-tagged Alphonso and Banganapalle mangoes — hand-picked at peak ripeness, naturally ripened (carbide-free), 3-stage quality graded. Saffron-coloured, non-fibrous flesh with incomparable aroma. APEDA-certified, phytosanitary-compliant for US, EU and UAE markets.

### IQF Mango & Mixed Fruits

HS 081190

Individually Quick Frozen mango slices, dices, and mixed tropical fruit blends processed at -30°C within hours of harvest. Free-flowing, non-clumping, with 24-month shelf life. Ideal for smoothie manufacturers, food service, and retail frozen aisles globally.

### Frozen Potatoes

HS 071010

Premium IQF potato cuts — dices, slices, cubes and strips — blanched and shock-frozen to lock in texture and flavour. Sourced from high-altitude farms for superior starch content. Ready for food service, snack processing, and QSR supply chains.

## Fresh & Frozen — Produce (continued)

### Frozen Peas

HS 071021

Sweet, tender IQF green peas harvested at the exact maturity window and frozen within 90 minutes to preserve natural sweetness and vivid colour. Consistent grade sizing available from petite to standard. Meets BRC, HACCP, and EU MRL standards.

### Frozen Sweetcorn

HS 071040

IQF whole kernel sweetcorn with vibrant golden colour and high natural brix, processed from fresh-harvested cobs. Free from additives and preservatives. Supplied to food manufacturers, ready-meal producers, and salad blend companies across 20+ countries.

### Other Frozen Vegetables

HS 071080

Premium IQF range including okra, baby corn, broccoli florets, diced carrots, sliced mushrooms, and custom mixed vegetable blends. Processed in HACCP-certified facilities with full cold-chain integrity from farm gate to container loading.

## Mango Pulp & Fruit Preparations

**HS 200799**

Premium Alphonso and Totapuri mango pulp processed through advanced aseptic technology — standardised Brix (14–16°) and acidity for consistent performance in dairy, beverage, bakery and confectionery. Available in 215kg aseptic drums, 3.1kg OTS cans, and custom retail formats.

# Tea & Botanical Beverages

Green, Black, Herbal & Functional Drinks

## #2

India's Global Tea Export Rank

### KEY MARKETS

Russia · Iraq · UAE · UK · USA · Germany · Australia  
· Japan

## Tea & Botanical — Beverages

### Green Tea — Not Fermented

HS 090210

Unfermented green teas from Darjeeling and Nilgiri high-altitude gardens, retaining delicate grassy-floral character and high antioxidant content (EGCG). Steamed and pan-fired varieties available in loose leaf, CTC, and pyramid bag formats for wellness and specialty beverage brands.

### Green Tea — Other Grades

HS 090220

Gunpowder, Sencha-style and blended green teas processed from premium South Indian estates. Consistent liquor colour, clean vegetal notes, and bright cup. Suitable for RTD beverage manufacturers, food service blenders, and health-focused retail brands in Europe and North America.

### Black Tea — Bulk (Fermented)

HS 090230

Full-bodied Assam and Darjeeling orthodox and CTC black teas, bulk packed for tea blenders, auction buyers and private-label packagers. Consistent liquor strength, deep amber cup, and full muscatel or malty character. GI-protected Darjeeling origin documentation available.

# Tea & Botanical Beverages

## Tea & Botanical — Beverages (continued)

### Black Tea — Retail Packed

HS 090240

Retail-ready black tea in foil-sealed pouches, tin caddies, and individually wrapped tea bags. Available in First Flush, Second Flush, and blended grades. Custom private-label printing, sustainable packaging formats, and organic certification available for key retail markets.

### Flavoured & Blended Teas

HS 090240

Artisan-blended flavoured teas — Masala Chai, Earl Grey with Bergamot, Jasmine Green, Rose Oolong, Turmeric Ginger and more — using natural botanicals, essential oils and spice infusions. No artificial flavours. Tailored blend development available for brand partners.

### Herbal & Medicinal Botanicals

HS 121190

Dried herbal botanicals including tulsi, moringa, ashwagandha, hibiscus, chamomile, and peppermint sourced from certified organic farms. Whole, cut & sifted, and powder formats with complete phytochemical testing, moisture specifications, and EU MRL compliance documentation.

### Basmati Rice — Semi-Milled / Milled

HS 100630

Naturally aged Himalayan foothill Basmati with pearly white lustre and exceptional elongation up to 24mm when cooked. Aged up to 24 months for optimal aroma development and non-sticky texture. Sourced from 80,000+ partner farmers with field-to-plate traceability. APEDA-certified GI-protected origin.

### Non-Basmati Rice — Husked

HS 100620

Premium husked non-Basmati rice varieties — IR-64, Sona Masoori, and Swarna — with consistent grain size, low broken percentage, and clean appearance. Bulk packed in PP/HDPE bags from 25kg to 50kg. Primary export market: West Africa, where India commands the largest volume share.

### Non-Basmati Rice — Milled

HS 100630

Parboiled and raw-milled non-Basmati rice processed in FSSAI-certified automated mills. Low moisture, uniform whiteness, and minimal impurities. Available in multiple grades — 5% broken to 100% whole — for food aid programmes, commodity buyers, and retail packagers.

High-quality broken rice fractions from Basmati and non-Basmati processing, used in brewing, rice flour manufacturing, animal feed, and starch production. Supplied to breweries in Europe, Southeast Asian food processors, and commodity trading houses. Available in bulk and 50kg bags.

# Honey & Natural Sweeteners

Honey, Jaggery, Cane Sugar & Natural Sugars

## 80%

Indian Honey Exported to USA

### KEY MARKETS

USA · Germany · UK · France · Australia · UAE · Saudi Arabia · New Zealand

## Honey & Natural — Sweeteners

### Natural Honey — Retail & Bulk

HS 040900

100% pure multifloral and monofloral honey from pristine Himalayan forests and certified organic apiaries — Litchi, Mustard, Acacia, and Wildflower varieties. NMR and IRMS-tested for purity and adulteration detection. Zero added sugars, zero antibiotics, zero artificial additives. EU and USDA Organic certified.

### Raw Cane Sugar / Jaggery Precursor

HS 170111

Unrefined raw cane sugar and khandsari crystals from chemical-free sugarcane processing. Rich in natural molasses with deep caramel colour and robust flavour. Used as a direct natural sweetener and jaggery production input. Available in coarse, medium, and fine crystal grades.

### Jaggery & Jaggery Products

HS 170199

Traditional cane and palm jaggery crafted without chemicals or bleaching agents — blocks, rounds, and finger formats in both refined and unrefined grades. Rich in natural minerals (iron, calcium, potassium) with distinctive caramel molasses flavour. GI-eligible Kolhapur cane jaggery available on request.

# Honey & Natural Sweeteners

*Honey & Natural — Sweeteners (continued)*

## Jaggery Powder & Other Natural Sweeteners

**HS 170290**

Fine-milled jaggery powder with low moisture (max 3%) for convenient use in baking, confectionery, and health food formulations. Also available: coconut palm sugar, date sugar, and natural invert syrups. Free-flowing, non-clumping, shelf-stable with 12-month ambient life.

# Spices & Chilli Products

Whole, Ground, Sauce & Dried Botanicals

## \$4.82B

India's Spice Export Record FY 2025-26

### KEY MARKETS

China · USA · UK · Germany · Netherlands · UAE · Vietnam · Bangladesh

## Spices & — Chilli Products

### Dried Chillies — Whole

HS 090421

Premium whole dried chillies including Guntur Sannam, Byadgi, Teja, and Wonder Hot varieties — each with distinct ASTA colour (4,000–8,000 units), heat profile (10,000–150,000 SHU), and pungency. Steam-sterilised to <100 TVC. Supplied to spice processors, food manufacturers, and wholesale spice traders globally.

### Crushed / Ground Chillies & Powder

HS 090422

Dried red chilli flakes, crushed chilli, and premium chilli powder in multiple grades — from paprika-style mild (below 1,000 SHU) to fiery Bhut Jolokia extracts. ASTA colour guaranteed per grade with Certificate of Analysis per lot. EU MRL-compliant, pesticide-tested, steam-sterilised.

### Chilli Sauces & Prepared Products

HS 210390

Value-added chilli preparations — traditional Indian hot sauces, pickled green chillies, chilli-in-brine, and custom-formulated condiments for retail and food service. Private-label production available in glass, PET, and pouch formats. Halal, Kosher, and Vegan certified options.

# Spices & Chilli Products

Whole, Ground, Sauce & Dried Botanicals

## \$4.72B

India's Spice Export Record FY2024-25

### KEY MARKETS

China · USA · UK · Germany · Netherlands · UAE · Vietnam · Bangladesh

## Spices & — Chilli Products (continued)

### Dried Ginger

HS 091010

Premium dried ginger from Karnataka and Kerala — whole fingers, splits, and ground forms with 6–15% gingerol content and characteristic pungency. ETO-free steam-sterilised. Supplied to spice blenders, supplement manufacturers, beverage brands, and Ayurvedic formulation companies in the US, EU, and Middle East.

### Anise / Fennel Seeds

HS 090910

Gujarat-origin fennel seeds (Saumf) with high volatile oil content (1.5–2.5%), bright green colour, and sweet aniseed aroma. Machine-cleaned, dust-free, and available in bold and medium grades. Export volumes surged 111% in 2024, driven by European food and beverage industry demand for natural flavouring ingredients.

# Plant-Based Protein

Soya Chunks, TVP / TSP & Mock Meat

## \$3.29B

Global Plant-Based Market by 2025

### KEY MARKETS

USA · UK · Germany · Netherlands · Australia · Japan · Singapore · China

## Plant-Based — Protein

### Soya-Based Mock Meat & Prepared Products

HS 210390

Ready-to-cook plant-based mock meat in nugget, keema, and mince formats — seasoned, marinated, and retail-packaged. Delivering meat-like texture through advanced twin-screw extrusion with 28–32% protein content. Suitable for vegan, vegetarian, and flexitarian consumers. Private label and OEM production available.

### Soya Chunks & Oil-Cake — TSP / TVP

HS 230400

100% Non-GMO Textured Soy Protein (TSP/TVP) in chunk, granule, flake, and mini-chunk formats — delivering 52g protein per 100g (dry basis). Manufactured via high-temperature extrusion, producing a fibrous, meat-like texture with excellent rehydration (1:3 ratio). Zero cholesterol, virtually fat-free, 12+ month shelf life.

### Soya Protein Concentrates & Isolates

HS 210610

Industrial-grade Soya Protein Concentrate (SPC, 70% protein) and Soya Protein Isolate (SPI, 90%+ protein) for food manufacturers, sports nutrition brands, and meat analogue producers. Available in spray-dried powder and granulated forms with neutral flavour profiles and high dispersibility.

# Plant-Based Protein

*Plant-Based — Protein (continued)*

## Processed Soya-Based Food Preparations

**HS 200819**

Retail-ready processed soya food preparations — marinated soya chunks, flavoured textured soy in curry-ready formats, and soya-based savoury snacks. Developed for export to diaspora retail markets and health food chains in the UK, US, Australia, and Southeast Asia. Custom flavour development available.

# Handicrafts & Cultural Exports

*Kondapalli Toys, Wooden Art & Heritage Pieces*

## 400+

Years of Kondapalli Artisan Heritage

### KEY MARKETS

USA · UK · Germany · France · Australia · Japan · Singapore · Israel

## Handicrafts & — Cultural Exports

### Kondapalli Toys — Traditional Lacquered

HS 950300

GI-tagged Kondapalli Bommalu — a 400-year-old living art form from Andhra Pradesh. Hand-carved from rare Tella Poniki softwood, assembled with organic tamarind-seed adhesive, painted with traditional vegetable dyes depicting Hindu mythology and rural Indian village life. Each piece is unique, eco-friendly, and carries GI provenance documentation.

### Wooden Articles & Decorative Carved Products

HS 442090

A broader range of carved and lacquered wooden decorative products — figurines, home décor panels, wall art, tabletop pieces, and gift items — produced by skilled artisans from the Kondapalli and Etikoppaka craft clusters. Custom sizes, themes, and corporate gifting collections available for international buyers.

### Antiques & Collector Items

HS 970600

Museum-grade and heritage-designated Kondapalli pieces for serious art collectors and cultural institutions — rare antique toy sets, ceremonial figurines, and archive-quality lacquered tableaux. Full provenance documentation, export permits, and Cultural Property certificates provided. Minimum 80 years age verified per piece.

# Human Hair & Hair Products

Temple Hair, Remy, Extensions, Wigs & Wefts

41%

## Human Hair & — Hair Products

### Human Hair — Unworked / Raw

HS 050100

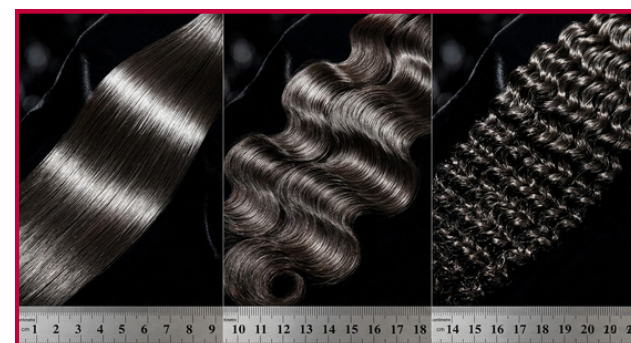

Raw, unprocessed human hair collected fresh and preserved immediately after cutting — sorted by length (8" to 36"), colour, and texture. Single-donor and multi-donor bundles available. No chemical treatment, no colouring, no perming. Supplied to wig manufacturers, extension producers, and hair artisan studios in 20+ countries.

### Temple Hair — Virgin Remy

HS 050100

100% virgin Indian Remy temple hair ethically sourced from South Indian temples (Tirupati, Sabarimala). Cuticle-intact, cuticle-aligned, single-drawn and double-drawn grades. Unmatched natural shine, zero shedding, tangle-free longevity. Available in Natural Black, Natural Brown, and Off-Black. Direct temple sourcing with ethical consent documentation.

### Human Hair — Dressed & Worked

HS 670300

Professionally processed human hair — washed, detangled, sorted, conditioned, and aligned — ready for immediate use in wig and extension manufacturing. Available in Steam Straight, Body Wave, Deep Wave, and Kinky Curly textures in 10"–34" lengths. Colour-treated options in European blonde, auburn, and ombre available.
